

# Unit Costs of Health and Social Care 2013

Edited by Lesley Curtis

ISSN 1368-230X, ISBN 978-1-902671-87-1, PSSRU, December 2013, 279 pages, paperback, £50.00

This is the latest updated volume in a well-established series bringing together information from a variety of sources to estimate national unit costs for a wide range of health and social care services. This report consists of tables for more than 120 types of service which, as well as providing the most detailed and comprehensive information possible, also quotes sources and assumptions so users can adapt the information for their own purposes. This year we have also included a guest editorial on *widening the scope of unit costs to include environmental costs* and three short articles on *cognitive behaviour therapy: a comparison of costs*, *residential child care: costs and other information requirements* and *the costs of telecare and telehealth*. The 2013 edition is also available in full, free of charge, at the PSSRU website - [www.pssru.ac.uk/unit-costs/2013/](http://www.pssru.ac.uk/unit-costs/2013/) - as an Acrobat file.
