

Unit Costs of Health and Social Care 2011

Edited by Lesley Curtis

ISSN 1368-230X, ISBN 978-1-902671-74-1, PSSRU, December 2011, 243 pages, paperback, £50.00

This is the latest updated volume in a well-established series bringing together information from a variety of sources to estimate national unit costs for a wide range of health and social care services. This report consists of tables for more than 120 types of service which, as well as providing the most detailed and comprehensive information possible, also quotes sources and assumptions so users can adapt the information for their own purposes. This year we have also included short articles on *the cost of extra care housing*, *Shared Lives – model for care and support* and *the cost and capacity implications for local authorities implementing the Laming (2009) recommendations*.

The 2011 edition is also available in full, free of charge, at the PSSRU website -www.pssru.ac.uk/unit-costs/2011/ - as an Acrobat file.
