

Foreword

This is the eighteenth volume in a series of volumes from a Department of Health-funded programme of work based at the Personal Social Services Research Unit at the University of Kent. To a greater or lesser degree, the costs reported always reflect work in progress, as the intention is to refine and improve estimates wherever possible, drawing on a wide variety of sources. The aim is to provide information that is detailed and comprehensive, and to improve unit cost estimates over time, drawing on material as it becomes available, including ongoing and specially commissioned research, and quoting sources and assumptions so users can adapt the information for their own purposes.

In putting the volume together, there are a large number of individuals who have provided direct input in the form of data, permission to use material, and background information and advice.

Grateful thanks are extended to Ann Netten and Jennifer Beecham who have been an invaluable source of support in the preparation of this report. I would also like to extend a special thanks to Glen Harrison and Nick Brawn for taking expert charge of the design and typesetting. Thanks are also due to Barbara Barrett, Sarah Byford, Adelina Comas-Herrera, Isabella Craig, Jane Dennett, Keith Derbyshire, Jessica Dunn, Christine Eborall, William Fenton, Jose Luis Fernandez, Nika Fuchkan, Ben Hickman, Lisa Holmes, Sarah Horne, Jessica Illingworth, Martin Knapp and David Lloyd. Thanks also to Samantha McDermid, Siobhain McKeigue, Stephen Richards, Tim Roast, Renee Romeo, Julie Selwyn, Joseph Sempik, Justine Schneider, Nalyni Shanmugathasan, Ian Shemilt, David Stevens, Rob Stones, Marian Taylor, Rhiannon Tudor-Edwards, Matt Walker, Helen Weatherly, David Wheatley, Karen Windle and Raphael Wittenberg.

If you are aware of other sources of information which can be used to improve our estimates, notice errors or have any other comments, please contact Lesley Curtis, email L.A.Curtis@kent.ac.uk, telephone 01227 827193.

Many figures in this report have been rounded and therefore occasionally it may appear that the totals do not add up.
